REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-3, 5, 6 and 8-17 are allowable because none of the prior art record suggests a light guiding panel formed with minute recesses in random shapes on a flat bottom surface of the substrate, the arithmetical average roughness Ra and the maximum height Ry of the bottom surface of the substrate, and the mean value of a contour size of the recesses gradual increase, as a distance from the side of the light guiding panel, through which the source light is incident, increases.
2. The drawings with petition were received on 25 September 2006. These drawings are approved.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
